Date of Production of this KID: 8 February 2019

What is this product?

Type

This product is a whole of life unit linked life assurance policy, issued by RL360 Insurance Company Limited.

Objective and intended retail investor

The product aims to provide growth on your investment over the medium to long term, preferably five years or more, through a life assurance policy that offers the potential to defer tax on the underlying investments. It provides access to a range of investment solutions, the option of cash withdrawals and will pay a cash sum on the death of a life assured.

It is aimed at investors who typically require tax efficient withdrawals; are active investors and wish to avoid triggering a tax charge during the term of the investment; are higher rate or additional rate taxpayers who expect to become basic rate taxpayers when the product is surrendered (e.g. on retirement) or who are able to assign it to a basic rate tax payer (e.g. a spouse) prior to surrender; and wish to mitigate the effects of inheritance tax by taking advantage of specialised trust arrangements.

The product offers a wide range of underlying investment options which will be selected by you and your adviser. The assets must be permitted investments and by way of guidance include UK OEICs & unit trusts and recognised overseas OEICs and SICAVs.

Please note that some underlying investment options may from time-to-time have holdings periods greater than five years.

Information on the underlying investments can be found in the accompanying Key Investor Information Document (KIID). These are available from your adviser.

Insurance benefits

100% of the surrender value that is payable upon death of the relevant life assured.

Maturity

While the product is open ended in that it has no fixed maturity, it will end on the death of the life assured on whose death a benefit becomes payable. Where there is more than one life assured the death benefit is payable on the death of the last life assured.

The manufacturer also reserves the right to close the product should the value of the product fall below a minimum allowable balance of £25,000 or 15% of the amount invested, whichever is greater.

Key Information Document (KID)

What are the risks and what could I get in return?

Risk indicator

The Nucleus Offshore Bond offers a range of underlying investment options with the risk classes ranging from one as the lowest and six as the highest. The risk and return of the investment varies depending on the underlying investment options.

The risk indicator shown above is not guaranteed to remain unchanged and may change over time.

This product does not include any protection from future market performance. However you invest your money, there's always going to be an element of risk connected with it; whether that is erosion in real terms against inflation or loss of value as a result of a change in the markets.

The benefits you receive will depend on investment performance. The value of investments can fall as well as rise and you may not get back the amount originally invested. The performance of funds holding assets denominated in foreign currency will also be subject to variations in currency rates. Your capital is at risk and you may lose some or all of your money.

It is important that you and your adviser properly understand your appetite for risk and capacity for financial loss so that together you can build an appropriate tailored risk strategy; one that is suited specifically to your needs.

What happens if RL360 Insurance Company is unable to pay out?

Owners of policies issued by RL360 Insurance Company Limited receive the protection of the Isle of Man Compensation of Policyholders protection scheme, which covers an amount equal to 90% (subject to the provisions of the scheme) of RL360's liability where it is unable to meet its financial obligations. RL360 reserves the right to adjust the returns to cater for any levy or charge made on it under the regulations or similar legislation.

Please note that this scheme is in relation to RL360 becoming insolvent and does not relate to the underlying investments chosen by you, with the assistance of your adviser. All underlying investments are made in the name of RL360 and so you will not be eligible to take advantage of any investor compensation scheme or any Depositors Compensation Scheme, which may otherwise exist if you had directly invested with the underlying fund manager, bank or building society.

Owners of policies issued by RL360 will not be protected by the Financial Services Compensation Scheme established under the UK Financial Services and Markets Act 2000 should RL360 be unable to meet its liabilities to them.

What are the costs?

The following provides information about the costs and shows the impact that all costs will have on your investment over time. We have taken these from the minimum and maximum costs of investments available to be held within a bond.

Table 1. Costs over time

Investment Scenarios Payment £10,000	If you cash in after 1 year	If you cash in after 2.5 years	If you cash in after 5 years	If you cash in after 10 years
Minimum				
Total costs	£150	£250	£400	£900
Impact on return (RIY) per year	1.6%	0.9%	0.7%	0.6%
Max (performance fees excluded)				
Total costs	£1,720	£3,020	£5,200	£10,100
Impact on return (RIY) per year	17.3%	12.3%	10.6%	9.7%

Table 2. Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	Range 0.0% to 5.0%	The impact of the costs you pay when entering your investment.
	Exit costs	Range 0.0% to 3.0%	The impact of the costs of exiting your investment when it matures or you sell it.
Ongoing costs	Portfolio transaction costs	Range 0.0%* to 4.38%	The impact of the costs buying and selling underlying investments for the product. *we have excluded any negative costs which may arise (these are anomalies based on the methodologies used, and do not actually reflect true costs)
	Other ongoing costs	Range 0.0% to 4.17%	The impact of the costs taken each year for managing your investments.
Incidental costs	Performance fees	Range 0.00% to 3.45%	The impact of the performance fee. These are taken from your investment if the product outperforms its benchmark.
	Carried interests	0%	The impact of carried interests.

Key Information Document (KID)

Your adviser may charge you other costs and will need to provide you with these and show you the impact they will have on your investment over time.

How long should I hold it and can I take my money out early?

Recommended holding period	5 years
----------------------------	---------

This product has no required minimum holding period but is designed for medium to long term investment; you should be prepared to stay invested for at least five years. There is no maximum holding period.

The exact period of time that is considered medium to long term will depend on your personal preferences, as well as the underlying investments under consideration but will generally be an investment horizon that is at least five years.

Medium term investments will often look for a balance between risk and return, being more conservative than longer term investment, but more risk tolerant than shorter-term options. It is expected that investors can afford to ride out some market volatility and need to protect their investments against inflation.

You may withdraw some or all of your money from this product, free of charge, at any stage by notifying the manufacturer in a prescribed format. While there may be no product charges applied, withdrawing money may lead to an income tax liability depending on your circumstances.

If you withdraw money from your product you may not be able to get back the full amounts you invested at the outset. You should also be aware that withdrawals are likely to have an impact on future potential investment growth, especially within the recommended holding period.

How can I complain?

If you wish to complain about any aspect of the Nucleus Offshore Bond please contact Aileen Heggie, complaints manager. You can get in touch via telephone on 0131 226 9740, via email at aileen.heggie@nucleusfinancial.com, or in writing to the following address:

Nucleus HQ, Greenside, 12 Blenheim Place, Edinburgh EH7 5JH

We will resolve complaints as quickly as we can. Some complaints require detailed investigation and/or a dialogue with third parties so will take longer to resolve. In these cases we will keep you up to date with progress.

In each case we will seek to provide fair redress where we believe it is appropriate.

On receipt of your complaint you will receive a letter acknowledging your complaint together with a note of Nucleus' complaints procedure.

If your complaint is not dealt with to your satisfaction you should contact the Financial Ombudsman Service in writing to Exchange Tower, London, E14 9SR or by telephoning 0300 123 9123. Any such action will not affect your right to take legal action.

Complaints against RL360 Insurance Company Limited that cannot be resolved can be referred to the Financial Service Ombudsman Scheme (FSOS) for the Isle of Man. You are not eligible to make a complaint against RL360 Insurance Company Limited to the UK Financial Ombudsman Service.
